

KONDA SRIDHAR

+91 9347389152 | Karimnagar, Telangana, India

sridharkonda553@gmail.com | linkedin.com/in/kondasridhar | github.com/sridhar56556

PROFESSIONAL SUMMARY

A Computer Science graduate with hands-on experience building Java backend systems, MySQL databases, and responsive web applications. Skilled in writing functional test cases, identifying and documenting software defects, and validating application behavior across multiple layers. Possesses strong analytical thinking, adaptability, and collaborative problem-solving skills, with a passion for innovation and delivering quality digital solutions in team environments.

EDUCATION

Bachelor of Technology (Computer Science and Engineering)

Dec 2021 – Jul 2025

Sree Chaitanya Institute of Technological Sciences, Karimnagar

Percentage: 68%

Intermediate (MPC)

Jun 2019 – Mar 2021

Kakatiya Junior College, Huzurabad

Percentage: 73%

SSC – Secondary School Certificate

Jun 2018 – Apr 2019

Nava Bharathi High School, Huzurabad

Percentage: 92%

TECHNICAL SKILLS

Programming Languages: Java, SQL

Database: MySQL

Web Technologies: HTML5, CSS3, JavaScript

Tools: Git, GitHub, Power BI, MS Excel, VS Code

Core Concepts: Object-Oriented Programming (OOP), Data Structures, Algorithms, Debugging

Soft Skills: Logical thinking, Analytical problem solving, Communication, Teamwork

PROJECTS

Enabling Secure and Space-Efficient Metadata Management in Encrypted Deduplication

(Java (J2EE), JDBC, JSP, Servlets, MySQL, Apache Tomcat)

- Designed a Java-based encrypted deduplication system to eliminate redundant data storage.
- Applied pre-encryption hash generation for duplicate file detection and storage optimization.
- Built and managed MySQL metadata tables to store hash values and file references.
- Developed backend logic using Java Servlets for file upload, encryption, and duplicate checking.
- Enabled secure file reconstruction using metadata tracking during download operations.

Online Ticket Booking System | [Live](#)

(HTML, CSS, JavaScript)

- Developed a responsive web application for booking tickets across bus, train, flight, and ship.
- Built a multi-step booking workflow with journey details, passenger information, and payment summary.
- Created an interactive dashboard displaying bookings, travel history, and total cost.
- Designed an intuitive interface with real-time fare breakdown and instant booking confirmation.

CERTIFICATIONS & ACHIEVEMENTS

- TCS iON Career Edge – Young Professionals
- Java Intermediate Certificate
- SQL Intermediate Certificate
- Introduction to Generative AI Studio – Google Cloud
- Software Engineering Job Simulation – Forage
